WWSA ARTs connection  
1100 16th Street NW Washington, DC 20036  
Open: Monday-Friday 10am-6pm Tel. 202-261-0204

**MINDSCAPES** flee the mundane--prod the memory--imagine what can (or should) be.

Touchstone gallery artists, in their exhibit “Mindscapes” at “[ARTiculate Gallery](#)”, explore landscapes of the mind in both abstract and representational ways. Most of the works reveal a reality that goes beyond the natural world we perceive and into the interior of the artists' hearts and imagination. As each artist escapes the commonplace, wanders down memory lane, and imagines what can be in their mind's eye, new realities are born.

Within these contemporary interior panoramas, Touchstone artists share their unique perspectives in paint, sculpture, hand pulled prints, photography, and collage. The medium is not the message - while every medium is explored to create its own offering, it is the guiding concept behind the choice of medium that will transport you.

Since 1976 Touchstone has been a dependable source of delight and escape for the art lovers of Washington. Temporarily functioning as a virtual gallery until we reopen our doors on New York Avenue, we offer Mindscapes at “ARTiculate Gallery”, WWSA ARTsconnection on April 15 – May 14, 2010. Come and see what we've been up to.
